## **Some Basic Rules to Ice Safety**

*NEVER just assume the ice is safe. While some people may be out on the ice does not mean the entire lake is safe. Shallow water, coves and shaded areas freeze up first. These areas may be ok to walk on while the deeper, more open water may just be covered with a thin layer of dangerous ice. One quick way to check ice thickness is to use a cordless drill with a long wood auger bit. Another is an ice chisel or "spudbar". Ice thickness can greatly vary in short distances. Check the ice about every 100 feet or so. Early or late ice require more frequent checks. There is NO such thing as "safe ice".*

*Visit [www.dnr.state.mn.us/safety/ice](http://www.dnr.state.mn.us/safety/ice) for more ice safety tips.*

*Here are a few:*

*Never go out on the ice alone. Make sure you have proper safety equipment and a buddy.*

*Wear a personal floatation device under your winter gear. Wear appropriate footwear. Crampons are used to convert footwear for use on ice.*

*Carry ice picks at all times.*

*Carry a rope with you.*

*Never walk or drive on cloudy ice.*

*Spring ice is NEVER safe*

*Snow acts as an insulator - it makes ice warmer and weaker.*

*Extreme cold snaps will weaken the ice.*

*Less than 2" - STAY OFF the ice.*

Red Cross**

THE BEST REASONS FOR SERVING ON A LAKE CAMELOT COMMITTEE

The Association relies on a network of committees to assist in management of the community’s affairs. Several committees oversee the functions of Lake Camelot. Here are our Top Ten reasons to volunteer for your association.

1. Give Back. Repay a little of what previous and current volunteers have done for you.

2. Be a part of correcting a problem. Anyone can notice a problem; we need people who will help offer solutions.

3. Be sociable. Meet your neighbors make new friends and exchange opinions.

4. Protect your interests. Protect your property values and maintain the quality of life in our Community.

5. Advance your career. Build your personal resume by including your community volunteer service.

6. Have some fun. Association work isn’t drudgery. It’s fun accomplishing good things with your neighbors.

7. Get educated. Learn how it’s done. We’ll train you and you’ll learn from people who are extremely knowledgeable in their respective fields.

8. Express yourself. Help with creative projects like community beautification, lake conservation, budgeting, recreation facilities, and long-range planning, to name a few.

9. Earn recognition. If you would like a little attention or validation, your contributions will be recognized and celebrated.

10. Try some altruism. Improve society by helping others.

You could get an idea of the contribution and rewards of committee service by just attending some meetings as a guest. Members are always welcome to attend meetings.

Top Ten Most Reminded Rules to Follow While Living at Lake Camelot

(NOT IN ANY PARTICULAR ORDER)

1. Septics - Remember to purchase sanitizing tablets and maintenance your septic system as recommended by the professionals.

2. Animal Feces- Nobody wants to step in it and nobody wants to pick it up for you. If you are walking your animal along the road ways of Lake Camelot and your dog has attended to his business –please be sure you attend to it too- PICK IT UP!

3. Geese- Please don’t feed them.

4. Slow Down- The safety of our children is in your hands! Our roadways are only as safe as we make them-please be aware -children are present!

5. Yard Lights- Blue Book says we are all supposed to have them in working order, is yours?

6. Walkers/Runners - Bicyclists- Walk on the Left, Ride on the Right!

7. Volunteer - If your neighbor can make the time to do it - you can too! Every person that volunteers at Lake Camelot is just as busy as the next - but realizing the importance of keeping the system going - is what makes it work----it’s when the people that continually do it get tired and nobody else steps up - is when it will all stop! Do your part- Please Become a Volunteer!

8. Dues - Late after March 31st. Paying before then will stop any additional charges to your account!

9. Planning a Project- Remember to submit your application to the ECC for approval PRIOR to making changes and/or additions to your property!

10. Lastly, not a rule- just thanking those that follow the previous nine and help to make Lake Camelot a better place to live- association living at it’s best

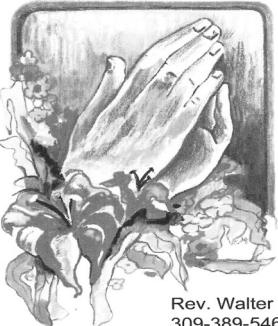

THANK YOU!!
