To assist in the understanding that the property is aged and that there are many areas of concern that are in need of repair and or eventual replacement, a slide show had been put together and would be shown later in the meeting. These areas will be touched up again in the spring. The Committee is in the process of getting repair costs needed to extend the life of our bridge and hope to have them available to the Board by their next meeting. The Annual Dam Inspection about to be performed by the engineers in December will give the Committee more information to move forward with repair/replacement costs.
